

Studio

powered by Equature

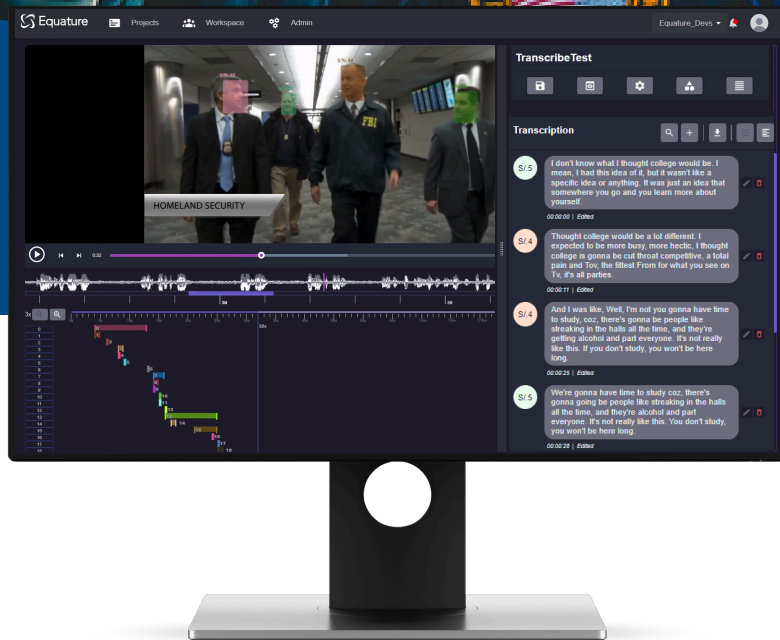

Equature Studio is a first-of-its-kind, artificial intelligence-powered redaction & transcription engine. Equature Studio provides real-time, automated redaction & transcription of both audio and video to help you remain in compliance with state and federal laws and regulations.

Built For Your Mission

Managing and redacting video evidence is tedious and time-consuming for law enforcement agencies. Equature Studio automates this process with artificial intelligence, freeing up your staff for high-value priorities.

How Equature Can Help

Equature Studio integrates audio, video, and other education records with A.I.-based automated redaction services, transcription services, and advanced user capabilities. Equature provides a level of cost savings and time reduction for institutions tasked with redacting or transcribing records to remain in compliance with laws and regulations. With intuitive transcription services, Equature Studio makes it easy to find specific points in a video, redact necessary images, and obfuscate or redact portions of audio.

Equature Studio is the first A.I.-powered redaction engine built for you.

Protect sensitive information with A.I. powered redaction and obfuscation.

Automate the process to save staff time and agency money.

Manually edit videos to redact specific objects or remove necessary redactions.

Notate and manage video easily within the application.

Export redacted videos and/or transcriptions for simple and fast sharing.

Automated Redaction for Regulations & Compliance
